REGIONAL AIRPORT

## **ACTIVITY REPORT**

October 24, 2008

### **PASSENGER ACTIVITY DECLINES IN OCTOBER CONSISTENT WITH OTHER REGIONAL AIRPORTS**

Manchester - Boston Regional Airport's September 2008 Activity Report revealed that passengers decreased 15.1% when compared to the same time period last year. The airport welcomed 281,643 passengers during the month compared to 331,590 in September 2007. Year to date passenger activity has declined slightly at 1.8%.

According to Airport Director Mark P. Brewer, A.A.E., "Although there has been some recent relief in fuel prices, the airlines have a lot of ground to make up in order to return to profitability. The passenger numbers here in Manchester are a reflection of industry- wide efforts to reduce capacity and operating costs. As the airlines continue to reduce the number of seats available nationwide, there will be a subsequent increase in demand which will lead to variations in ticket pricing. The ripple effect caused by shifting market forces will impact all air carrier airports, including Manchester. We remain very encouraged by the strong load factors that we continue to see in our market and are confident that passengers will continue to look to Manchester-Boston Regional Airport for the convenient and friendly travel experience they have come to expect."

Cargo activity decreased 7% when compared to the same time period last year. Year to date cargo activity has decreased 8.6%. The cargo carriers have indicated that this decrease is indicative of the downturn in the economy.

#### ***What's New at MHT?***

Manchester-Boston Regional Airport has selected URS Corp. to conduct an airport master plan update. The airport has also selected Jacobs Consultancy to perform an economic impact study.
