

To the Board of Mayor and Aldermen of the City of Manchester:

The Special Committee on Airport Activities respectfully recommends, after due and careful consideration, that the Airport Carbon Accreditation Policy be approved.

(Unanimous vote with the exception of Alderman Vincent who was absent)

Respectfully submitted,

Clerk of Committee

At a meeting of the Board of Mayor and Aldermen held December 17, 2024, on a motion of Alderman O’Neil, duly seconded by Alderman Terrio, the report of the Committee was accepted and its recommendation adopted.

City Clerk

AIRPORT CARBON ACCREDITATION POLICY

Providing an exceptional guest experience is a core principle of the Manchester-Boston Regional Airport. This necessitates that we understand our guests' expectations and that we commit to meeting or exceeding those expectations. Our guests, and our community, expect an Airport operation that both recognizes its impact on the environment and strives to protect it for future generations to enjoy. We want our guests to know that when they Fly Manchester, they are choosing an airport dedicated to environmental stewardship.

Through the pursuit of a Level 1 Airport Carbon Accreditation, we are embarking on a journey with our guests and business partners that will lead to an Airport operation that embraces methods that are both socially responsible and economically sound.
